

Vijay Patel

Data Analyst & Data Scientist

Varanasi / Mirzapur, Uttar Pradesh, India

+91 9682021912 — vijay9920669042@gmail.com — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

Professional Summary

B.Tech Information Technology student with hands-on experience in Data Analytics, Python, SQL, Excel, Power BI, Tableau, and R. Skilled in data cleaning, exploratory data analysis, statistical analysis, data visualization, trend identification, KPI tracking, and dashboard development. Developing practical knowledge of predictive analytics, machine learning, and AI-assisted data analysis through internships and projects. Experienced in analyzing transaction, booking, and sales datasets to identify patterns and generate actionable insights. Seeking Data Analyst or Data Scientist internship and entry-level opportunities to apply analytical, programming, and problem-solving skills to real-world data problems.

Experience

BharatCares / IBM SkillsBuild (AICTE Collaboration)

August 2026 – Present

Data Analytics with AI Intern

- Selected for the 6-week IBM SkillsBuild Data Analytics with AI Internship in collaboration with AICTE and BharatCares.
- Developing practical skills in data cleaning, exploratory data analysis, predictive analytics, and machine learning.
- Working with Power BI and Tableau to transform datasets into meaningful visual insights.
- Exploring AI-assisted analytics and applying analytical techniques to real-world datasets.
- Participating in expert-led masterclasses, mentorship sessions, and project-based learning.

Zetheta Algorithms Private Limited

July 2026 – Completed

Data Analyst Intern

- Performed data analysis and preparation tasks to support business-focused analytical work.
- Applied data cleaning, analysis, and interpretation techniques to identify patterns and insights.
- Worked with structured datasets and developed practical experience in data analytics workflows.
- Strengthened skills in Python, SQL, data visualization, and analytical problem solving.

YuvaIntern / Henry Harvin

August 2026 – September 2026

Virtual R Data Analyst Intern

- Performed data cleaning, exploratory data analysis, statistical testing, and data visualization using R.
- Analyzed real-world datasets to identify trends and communicate meaningful data insights.
- Developed practical knowledge of R programming, statistics, and data science workflows.

Education

Rajkiya Engineering College (REC), Mirzapur, Uttar Pradesh

2023 – 2027

Bachelor of Technology – Information Technology

Expected Graduation: 2027

St. K.C. Memorial School, Varanasi, Uttar Pradesh

2021 – 2023

Senior Secondary – CBSE

Percentage: 74%

Technical Skills

Programming	Python, SQL, R, C, C++, Java
Data Analytics	Data Cleaning, Data Extraction, Data Manipulation, EDA, Statistical Analysis, Trend Analysis, Data Interpretation, KPI Tracking, Reporting
Data Science	Predictive Analytics, Machine Learning, Statistical Modeling, Feature Engineering, Data Pre-processing
Python Libraries	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
BI & Visualization	Power BI, Tableau, MS Excel, Dashboard Development, Data Visualization, Business Intelligence Reporting
Database	MySQL, SQL, DBMS
AI	Generative AI, Prompt Engineering, Multimodal RAG, AI-assisted Analytics
Tools	Jupyter Notebook, Git, GitHub, VS Code

Projects

UPI Spending Pattern Analyzer

Python — Pandas — SQL — Power BI

- Analyzed 63K+ UPI transactions to identify spending patterns, transaction trends, and customer behavior.
- Cleaned and transformed transaction data using Python and Pandas for analytical processing.
- Used SQL to analyze monthly trends, transaction types, users, merchants, and business KPIs.
- Built Power BI visualizations to communicate spending trends and payment performance.

Hotel Booking Data Analysis

Python — SQL — EDA

- Performed exploratory data analysis on hotel booking data to identify booking trends and cancellation patterns.
- Used SQL for filtering, grouping, aggregation, and analysis of booking records.
- Applied statistical analysis and data interpretation to derive meaningful business insights.

Sales Data Dashboard

Power BI — Excel — Business Intelligence

- Developed an interactive Power BI dashboard to monitor sales performance and key business metrics.
- Used Excel and Power BI to organize, analyze, and visualize sales data.
- Implemented KPI tracking and business intelligence visualizations to support reporting and decision-making.

Certifications & Achievements

- Postman API Fundamentals Student Expert
- Goldman Sachs – Operations Job Simulation
- IBM SkillsBuild – Data Analytics with AI Internship
- Certificate of Participation – CodeCrafters Challenge 2025
- Certificate of Participation – Google Gemini QuizOff 2026
- Certificate of Participation – Weekly Coding Challenge

Relevant Coursework

Python Programming — Database Management & SQL — Statistics — Machine Learning — Business Intelligence
— Data Structures & Algorithms
